Certified "Trade Newspaper" and "Focused Newspaper" by the California Department of General Services. Published by C&S Publishing, a woman-owned small business, since 1994.

Caltrans Bike Month Push Signals Active Transportation Work

Caltrans and the California State Transportation Agency marked May is Bike Month with a leadership ride and event outside the agency's Sacramento headquarters on May 7, drawing more than 100 riders alongside Transportation Secretary Toks Omishakin and local...

Beyond the celebration, agency leaders reiterated a commitment to expanding active transportation infrastructure statewide. Caltrans advisors said the department is adding bike lanes, crossings, and stronger connections to transit as part of its Complete Streets efforts.

For contractors, the emphasis points to continued demand for bikeway construction, roadway restriping, pedestrian crossing improvements, and multimodal transit connection projects on state and local routes. Firms with experience in Complete Streets and active transportation work may see bidding opportunities tied to these priorities.

"Firms with experience in Complete Streets and active transportation work may see bidding opportunities tied to these priorities."

The event was co-sponsored by the Office of Traffic Safety, the city of West Sacramento, the 50 Corridor TMA, and Sacramento Area Bicycle Advocates, with the 7-mile route running from midtown Sacramento to West Sacramento and back.

Caltrans Memorial Spotlights Work Zone Safety For Road Crews

Caltrans held its 36th Annual Workers Memorial in West Sacramento, honoring the 195 department workers killed in the line of duty since 1921. The ceremony at River Walk Park brought together families, state officials and employees to reinforce the goal of zero highway fatalities and serious injuries by 2050.

This year's event was dedicated to Construction Inspector Mahdi Khorram, who was killed in a work zone incident in Contra Costa County on September 18, 2025. His death underscores the ongoing risks faced by crews and inspectors working alongside live traffic.

State Transportation Secretary Toks Omishakin and Caltrans Director Dina El-Tawansy emphasized renewed action to protect front-line transportation workers and to build a stronger culture of safety across the department's operations.

For contractors and subcontractors performing state highway work, the continued focus on work zone safety signals ongoing scrutiny of traffic control plans, worker protection measures and safety compliance on Caltrans projects statewide.

Caltrans District 10 Shares Tip on Finding Contract Opportunities

Caltrans District 10's Office of Small Business has launched a weekly "Tip of the Week" aimed at helping businesses learn how to work with the state and get noticed. The first installment, emailed to The Daily Reporter on October 12, 2026, is titled "Don't Miss Out on Contract Opportunities."

This week's tip focuses on how to access bid solicitations and place ads in Cal eProcure. The office points contractors to short video guides covering how to access bid solicitations and place ads, how to receive notifications for bid solicitations, how to update a certification profile, and an overview of keywords and UNSPSCs.

Contractors can reach Cal eProcure at <https://caleprocure.ca.gov/pages/events.aspx> or WebEx.

The Small Business Liaison for the district is Traci Adams, and more information on the district's small business programs is available at <https://dot.ca.gov/caltrans-near-me/district-10/district-10-programs/small-business>. The office is based at 1976 E. Martin Luther King Jr. Blvd, Stockton, CA 95205.

Contractors seeking state work may find it worthwhile to keep their certification profiles current so they receive relevant solicitation notices.

Caltrans District 10 Plans Quarterly Construction Outreach via WebEx

Caltrans District 10 announced a Quarterly Construction Outreach event aimed at certified small businesses, scheduled for October 27, 2026, from 9:00 am to 10:00 am. The

session will be held virtually via WebEx.

The agency said the event will review projects that will be available to bid on in the upcoming quarter. Project managers will be on hand to answer questions, and staff from Caltrans District 10 Construction are expected to attend. Organizers also noted that participants may meet potential partners who could help with their projects.

Contractors can register at <https://lp.constantcontactpages.com/ev/reg/dsnp2w>. Firms interested in upcoming Caltrans work in the district may want to review their qualifications ahead of the session.

Flatiron Dragados-Sukut JV Wins \$1.8B Anderson Dam Job

A joint venture of Flatiron Dragados and Sukut has secured a \$1.8 billion

contract to upgrade the Anderson Dam near San Jose, one of the largest public-works packages in Santa Clara County in recent years.

The dam is currently operating at reduced capacity because of seismic concerns, and the work is aimed at bringing the structure up to modern earthquake safety standards.

For contractors and subcontractors in the Bay Area, a project of this scale points to substantial subcontracting and supply opportunities tied to heavy civil, earthwork and water-infrastructure trades.

The award underscores continued investment in California dam safety and reservoir reliability, work that is expected to generate demand for specialized labor and equipment throughout the project's duration.

FEATURE

Caltrans Opens \$35M Planning Grant Round For Sustainable Transportation

Caltrans has opened its annual Sustainable Transportation Planning Grant program, making roughly \$35 million available statewide for planning work aimed at cutting greenhouse gas emissions, expanding multimodal travel options, and helping underserved...

For contractors, this is upstream money. Planning grants do not pour concrete or move dirt on their own, but they are the seedbed for the capital projects that follow. Corridor studies, active-transportation plans, transit access assessments, and resilience planning funded in this cycle are how local agencies define the roadway, bikeway, transit, and drainage improvements they will eventually bid out for construction. Firms that track where these dollars land get an early read on the public-works pipeline two, three, and four years down the road.

The program draws on a mix of funding sources, including Senate Bill 1, the Road Repair and Accountability Act of 2017, the State Highway Account, the Federal Transit Administration, and the Federal Highway Administration. That blend matters to the construction community because SB 1 has been a durable, dedicated stream for California road and transit work since it took effect, and its continued flow into planning signals sustained investment in the state's transportation network for years to come.

"Firms that track where these dollars land get an early read on the public-works pipeline two, three, and four years down the road."

Eligible applicants are transit agencies, local governments, regional and metropolitan transportation planning organizations, and Native American tribal governments. In practical terms, that means cities, counties, transit districts, councils of governments, and tribes across the state will be preparing applications this fall for planning studies that shape future construction programs. Contractors with relationships in those jurisdictions should pay attention to which entities apply and what corridors they target.

The stated goals of the program point directly at the kinds of construction work that tend to follow. Reducing greenhouse gas emissions and enhancing multimodal transportation typically translate into bike lanes, sidewalks,

crosswalks, curb ramps, bus stops and shelters, transit signal priority, complete-streets reconfigurations, and roadway restriping. Resilience planning for disasters and extreme weather points toward drainage upgrades, culvert and storm-system improvements, slope stabilization, and hardening of roads and transit facilities against flooding and heat.

That scope spans a wide range of trades. Grading and earthwork crews, paving contractors, concrete flatwork specialists for sidewalks and curb ramps, striping and signage firms, electrical contractors for signals and lighting, and drainage and utility subcontractors all stand to benefit as planning studies mature into shovel-ready projects. Structures work may enter the picture where planning identifies the need for pedestrian bridges, retaining walls, or grade separations along key corridors.

The phasing here is important for firms to understand. This is the front end of a long cycle. Applications are due this October, awards come in spring 2027, and the actual planning studies run after that. Only once a study is complete and an agency secures capital funding does a project move to design and then to construction bidding. Contractors who want to be positioned for the resulting work should treat this grant round as intelligence gathering rather than an immediate bidding opportunity.

Still, the early awareness has real value. A firm that knows a city is studying a particular arterial for a complete-streets overhaul, or that a transit agency is planning improved bus access in a disadvantaged community, can begin building the relationships, past-performance record, and local knowledge that make the difference when the construction contract finally goes out to bid. Public agencies often favor contractors who understand a corridor and its community context, and that understanding starts at the planning stage.

Caltrans is supporting applicants throughout the process. The department will host application workshops beginning the week of August 24 and will offer technical assistance right up to the October 9 deadline. Resources and application materials are posted on the Sustainable Transportation Planning Grant program page. Contractors with government-relations staff or those who partner regularly with local agencies may find it worthwhile to encourage clients in their service areas to apply, since a successful application today can seed a buildable project tomorrow.

The emphasis on underserved communities is another signal worth reading. State transportation funding continues to prioritize equity, meaning planning dollars and the construction projects that follow are increasingly directed to communities that have historically seen less infrastructure investment. Firms with experience delivering work in urban infill settings, rural areas, and tribal lands may find growing demand as these plans convert into capital programs.

Because the funding is statewide and roughly \$35 million is awarded annually, the geographic spread of eventual projects will be broad. From large metropolitan planning organizations in the state's major regions to small rural counties and tribal governments, the coming award cycle will touch communities across California. Contractors operating in any given region should monitor which local applicants succeed in their area to anticipate the specific corridors and facility types that will generate future work.

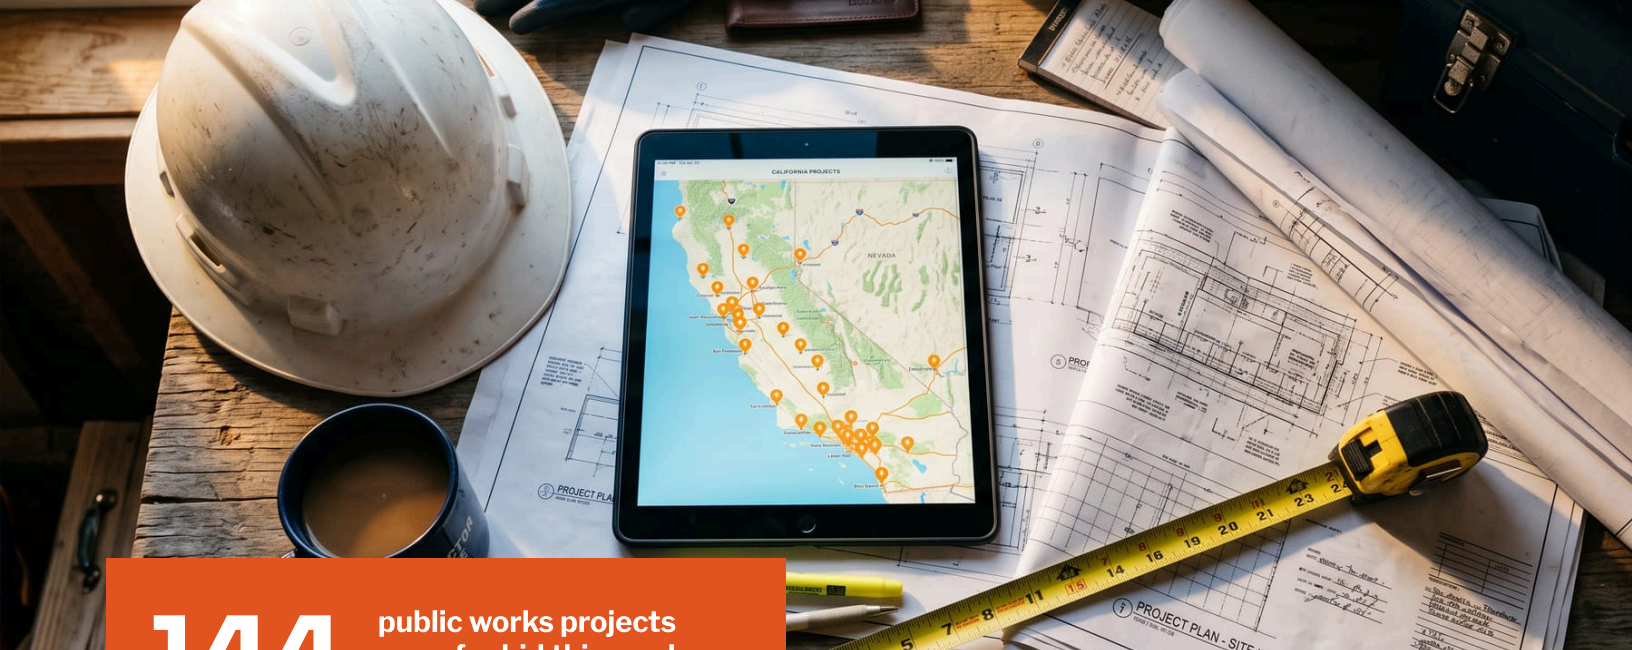

The bottom line for California's construction industry is that this grant round is an early indicator, not a bid opportunity. There is no immediate contract to chase, but there is a map being drawn of where the state and its local partners intend to invest in cleaner, safer, more resilient transportation. Firms that study that map now, cultivate the right agency relationships, and stay ready for the design and construction phases to come will be best placed to capture the public work that flows from this year's planning grants.

Project Name: Master As-Needed Alameda Watershed Improvements
Bid/Contract: WD-2930.A
Awarding Agency: SFPUC
Project Location: Alameda & Santa Clara Counties
Bid Date: 10/14/2026

Project Details

Cratus, Inc. is requesting quotes from certified CMD LBEs Subcontractors, Suppliers & Haulers for the Master As-Needed Alameda Watershed Improvements Project.

The LBE subcontractor participation requirement for this Contract is 20.00%

The Engineer's Estimate is \$10,000,000

An As-Needed Construction Services contract is an indefinite quantity contract pursuant to San Francisco Administrative Code Section 6.64(b), As-Needed Construction Contracts, Master As-Needed Agreements. San Francisco Public Utilities Commission (SFPUC) plans to accomplish a series of construction projects with as-needed construction services master agreements awarded before the projects are identified.

Quotes are requested from qualified Subcontractors, Suppliers, & Haulers for all scopes of work, including but not limited to; Earthwork / Grading & Paving, Rural Road Construction & Maintenance, Retaining Walls & Slope Restoration/Stabilization, Culvert Installation & Repair, Fencing, Stock Ponds / Small Dams Construction, Rangeland Infrastructure, Small Bridge Construction, Trails Construction, Concrete/Drainage Structures, Site Safety, Traffic Control, Trucking/Hauling.

Suppliers are required for materials including Culvert/Drainage Pipe, Valves, Misc Metals & Aggregates.

The plans and specs can be requested via email at "estimating@cratusinc.com" or can be viewed on the SFPUC website below: <https://webapps.sfpuc.org/bids/DocList.aspx?bidid=4614>

Please email us with any questions or for help with bidding or insurance. We are an equal opportunity employer. Bonds will not be required from qualified subcontractors.

S.P. Rados, Inc. is a Signatory Union Contractor. Subcontractors will be required to abide by the terms and conditions of the AGC Standard Long Form Subcontract incorporating prime contract terms and conditions, including payment provisions & insurance requirements. S.P. Rados, Inc.'s listing of a subcontractor is not to be construed as an acceptance of all the subcontractor's conditions or exceptions included with the Subcontractor's price quote. Subcontractors will be required to provide a payment & performance bond from an approved surety company for 100% of the subcontracted work. S.P. Rados, Inc. will pay bond premium up to 1.5% (optional).

Please be advised, Contractors and Subcontractors must register with the D.I.R. (Department of Industrial Relations) in order to bid on public works projects. Registration with the D.I.R. costs \$300 and covers the fiscal year (July 1 to June 30th). To verify status of your D.I.R. number, please visit: <http://dir.ca.gov/Public-Works/Contractors.html>

Assistance is available in obtaining bonds, lines of credit and/or insurance. We will consider dividing total requirements when economically feasible into smaller tasks or quantities to permit participation by DBE in the competitive process. We will assist in obtaining necessary equipment, supplies, materials & related assistance or services. S.P. Rados, Inc. requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation.

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

CITY OF GREENFIELD WASTEWATER TREATMENT PLANT UPGRADE PROJECT

Bid Date: November 10, 2026 until 2:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Scope of Work includes: The City will be constructing an upgraded 2.0 million gallons per day ("MGD") wastewater, capable of meeting these more stringent treatment requirements. The new WWTP will be located on the same site as the existing WWTP, on the northeast end of Walnut Avenue in the City. Furnishing all labor, materials, equipment and services for the new Wastewater Treatment Plant (WWTP), including, but not limited to:

1. Phase 1: Site Preparation includes over-excavation, soil stabilization, temporary retaining wall construction, existing WWTP bypass piping modification, installation of bypass, coordination with PG&E for demolition and relocation of PG&E facilities, provision of temporary power, and construction of the stormwater retention basin.

2. Phase 2: WWTP Construction includes site grading, paving and yard piping, new access roads, perimeter fence and gates, plant drain pump station and on-site stormwater collection facility, a headworks facility, packaged Membrane Bioreactor (MBR) Treatment Plant, equalization basins, influent pump station, centralized fine screen facility with a MBR flow splitting box, ultraviolet (UV) disinfection system, electrical service upgrades, standby generator, chemical distribution and storage improvements, structural concrete slabs, effluent pump station and distribution system, 3-Water (3W) pump station, hydro-pneumatic tank, 3W distribution system, recycled water pump station, recycled water automatic self-cleaning filter, one of the solids handling facility, domestic potable water system, Administration/Operation Building, Maintenance/Storage Building, Electrical/Chemical Building, chemical metering and dosing systems, electrical improvements, instrumentation and controls, SCADA, testing, arcflash compliance, commissioning, training, construction of the effluent pipeline in phases, and general site improvements and all necessary finish work associated with the improvement project and its related components.

3. Phase 3: Decommission and Demolish Existing WWTP Convert existing clarifiers 1, 2, & 3 to emergency storage. Demolition of existing facilities at the existing wastewater treatment plant as needed for conversion, remove temporary retaining wall and regrade existing site, removal of equipment at the interior of the clarifier tanks, coating of clarifier tanks' interior surfaces, replacing piping and valves between the clarifier tanks, demolition of aerators and existing junction box at the aerated pond site, and any repair to the equipment and liner for the conversion of the existing aerated pond to recycled water storage ponds.

4. Phase 4: Finish Facilities Walnut Avenue extension that includes stormwater transmission facilities, new potable water service, new recycled water main, and sanitary sewer; and installation of a second sludge handling unit.

B. The Work also includes maintaining the existing WWTP in service in Phases 1 and 2 and maintaining compliance with the General Order/NOA during construction.

Project is to be completed within Nine Hundred and Fifteen (915) calendar days

Location: 41901 Walnut Avenue, Greenfield, CA 93927

Local Hiring Effort: The Monterey Bay Area residents includes only the counties of Monterey, San Benito, and Santa Cruz (50%) of the contractor's total construction work force, including any subcontractor work force, measured in labor work hours, Disadvantage Business Enterprises DBE/WBE/MBE are encouraged to bid on this project.

Pre Bid Conference: The mandatory pre-bid meeting will be held at City Hall, which is located at 599 El Camino Real, Greenfield, CA. Following the in-person mandatory pre-bid meeting, attendees/prospective bidders will travel using their own transportation to the City's existing WWTP, approximately 2 miles from City Hall.

Mandatory In-Person Pre-bid Meeting: October 5, 2026, at 10:00 am

Documents are available at no cost on www.buildingconnected.com, login is required.

Planet Bids <https://vendors.planetbids.com/portal/78539/portal-home>

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. We encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually. We offer to assist you with bonding, credit, and insurance. Acceptance of Subcontractor's bid is expressly conditioned upon Subcontractor's assent to all terms and conditions contained in the applicable Overaa standard agreement without modification. These agreements are available for viewing in the Bidding Opportunities tab on our website, <https://www.overaa.com/subcontractors/bidding-opportunities>. By submitting a bid, Subcontractor is certifying that it has read the applicable Overaa standard agreement (either the Subcontract Agreement or Purchase Order Agreement) in full and accepts all terms without modification. Further, by submitting a bid, Subcontractor waives any rights or claims it may have to modify the terms of the Overaa standard agreement, whether through negotiations, discussions, or other means.

Overaa's standard agreements include the right for Overaa to require Subcontractors to furnish a faithful performance and labor bond, in a form and from a surety acceptable to Overaa, in the amount of 100% of the Subcontract price. Subcontractors will be required to comply with all subcontract insurance requirements, which includes providing a waiver of subrogation endorsement to their workers compensation insurance. Overaa utilizes the environmentally-friendly Textura electronic invoicing and payment system to streamline and expedite subcontractor invoicing and payment. Service fees charged by Textura for processing of electronic payments to Subcontractor shall be the responsibility of Subcontractor. Please contact our office if you would like more information. We are signatory to both Carpenters and the Laborers Union Collective Bargaining Agreements.

AN EQUAL OPPORTUNITY EMPLOYER

Broward Builders, Inc.

BIDS NOV 16, 2026 • 2:00 PM

**Broward Builders, Inc.**

is requesting bids from qualified Subcontractors, including certified DVBE/MBE/WBE/SB/MB/DBE/LBE/SLBE/UDBE Subcontractors, Suppliers & Truckers for the following project:

Student Housing

Eureka, CA

Bid Date: November 16, 2026, at 2:00 pm

Construction of a new three-story student housing building with a one-story student lounge. The student housing building will contain 118 two-bed guest rooms one bath accommodations, 6 resident advisor guest rooms, accommodating a total of 242 beds. Additionally, there will be 2 two-bed guest rooms designated for full-time faculty. The facilities will also include administration offices, mental health and tutoring spaces, as well as study and laundry rooms. Scope of work also includes an open to sky maintenance yard, diesel generator, and a total of three (3) new fire hydrants.

Assistance will be given in obtaining bonds, lines of credit and/or insurance as well as necessary equipment, supplies, materials or related services. Contact Randy Cantrell at the number noted below for assistance.

Scope of Work: Work includes, but is not limited to demolition, structure demolition, concrete forming and accessories, concrete reinforcing, cast-in-place concrete, gypsum cement underlayment, reinforced concrete masonry units, structural steel, metal fabrications, landscape metal fabrications, pipe and tube railings, rough carpentry, miscellaneous rough carpentry, wood decking, sheathing, prefabricated wood lumber, glued-laminated timber, landscape finish carpentry, interior architectural woodwork, plastic paneling, crystalline waterproofing, thermal insulation, under-slab-on-grade vapor retarder, building envelope underlayment, standing-seam metal roof panels, metal wall panels, fiber cement siding, elastomeric tpo membrane roofing, sheet metal flashing and trim, roof specialties, roof accessories, penetration firestopping, joint firestopping, joint sealants, acoustical joint sealants, hollow metal doors and frames, interior aluminum frames, flush wood doors, access doors and frames, overhead coiling doors, overhead coiling smoke curtains for elevator doors, won door, aluminum entrances and storefronts, automatic sliding door systems, glazed window wall assemblies, vinyl windows, door hardware, glazing, frameless mirrors, louvers and vents, non-structural metal framing, cement plastering, gypsum board, tiling, acoustic underlayment, concrete flooring treatment, concrete processing, resilient base and accessories, slip resistant sheet flooring, tile carpeting, acoustic accessories, exterior painting, interior painting, exterior transparent finishes, exterior high-performance coatings, graffiti-resistant coatings, signage, toilet compartments, toilet and bath accessories, shower and tub enclosure, fire protection specialties, residential appliances, commercial foodservice equipment, window shades, simulated stone countertops, hydraulic passenger elevators, fire suppression, plumbing, hvac, electrical, communications, electronic safety and security, site clearing, earth moving, utility trenching and backfill, pavement base courses, asphalt paving, concrete pavement, site concrete, concrete curbs and gutters, concrete unit paving, decomposed granite paving, pavement markings, tactile warning surfacing, synthetic grass surfacing, site furnishings, planting irrigation, soil preparation, plants, water system, sanitary sewer system, landscape drainage, and storm drainage utilities.

This is a prevailing wage project. Certified payroll will be required. All subcontractors must be registered with the Department of Industrial Relations (DIR) in order to submit a bid.

Plans and specifications may be obtained by emailing a request to Estimating at estimating@browardbuilders.com.

100% Payment & Performance Bond May Be Required. Subcontractors will be required to execute our standard subcontract agreement and agree to our standard and general terms and conditions. Copies are available for review on our website www.browardbuilders.com or upon email request.

Broward Builders, Inc. is signatory to the Carpenter's, Cement Masons, Tapers and Operating Engineer's Unions.

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

EBMUD MWWTP Secondary Reactors Rehabilitation, Phase 2 - SD462

Bid Date: November 18, 2026 until 2:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Work includes rehabilitation of covered and open concrete structures; relining, modification, or replacement of small and large diameter steel and ductile iron pipes and their associated pipe supports; replacement or installation of valves and piping appurtenances and their associated electrical and instrumentation scope; installation and operation of a temporary 11 MGD pumped bypass; rehabilitation of reactor mixer and aerator; installation of new or improvements to existing instrumentation and their associated electrical and instrumentation scope; rehabilitation and replacement of motor control center components; modifications to existing sluice gates and installation of new slide gates; installation of platforms and access improvements to open concrete structures; rerouting of sump pump discharge lines; excavation and trench work; and surveying of key points in and around the reactors.

This project will require multiple trades and types of work; for example (note: this list is not all inclusive): demolition, saw-cutting, concrete coring, hazardous materials handling, grading, excavation, shoring, fill, concrete, rebar, waterproofing, painting, industrial coatings, structural steel, bolting, welding, mechanical, electrical, pipeline, plumbing, crane equipment, handrails, guardrails, ladders, gratings and railings, doors and windows, paving, pumped bypass systems, surveying, and other required work and trades. For additional description and information, see Document 00 41 01 – Bid Form, Document 00 41 05 – Description of Bid Items, Section 01 11 00 – Summary of Work, and the remaining contract documents.

Estimated cost of this work is between \$18,500,000 and \$19,500,000

All work covered by the contract shall be completed within six-hundred and twenty-seven (627) calendar days after the issuance of the Notice to Proceed.

Location: Oakland, CA

EBMUD Contract Equity Program is in effect on this project. District contracting objectives are: Construction 25% White

Men; 9% White Women, 25% Ethnic Minorities (Men and Women).

Pre Bid Conference: The District will conduct a pre-bid jobsite inspection tour to familiarize prospective bidders with the project site and conditions. The inspection will be conducted on October 7, 2026, at 10 a.m. and October 14, 2026 at 10 a.m. Attendees shall assemble at 2020 Wake Avenue, Oakland, CA

Documents are available at no cost on www.buildingconnected.com, login is required.

Project information, including plans, specifications, plan holders list, bid results, etc., can be found at <https://construction-bids.ebmud.com/CurrentorFutureBid.aspx?BidMode=Current>. The District will make its best efforts to include information provided by bidders obtaining plans and specifications, such as bidders' names, addresses, phone and fax numbers, and email and website addresses, on the website plan holders list.

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. NAICS:

237110, 237310, 236210, 238110, 238120, 238160, 238210, 238220, 238310, 238320, 238390, 332312, 332322, 423510, 423610, 423830, 484220, 488490, 541330, 541370, 541990, 561730

S.P. Rados, Inc. is a Signatory Union Contractor. Subcontractors will be required to abide by the terms and conditions of the AGC Standard Long Form Subcontract incorporating prime contract terms and conditions, including payment provisions & insurance requirements. S.P. Rados, Inc.'s listing of a subcontractor is not to be construed as an acceptance of all the subcontractor's conditions or exceptions included with the Subcontractor's price quote. Subcontractors will be required to provide a payment & performance bond from an approved surety company for 100% of the subcontracted work. S.P. Rados, Inc. will pay bond premium up to 1.5% (optional).

Please be advised, Contractors and Subcontractors must register with the D.I.R. (Department of Industrial Relations) in order to bid on public works projects. Registration with the D.I.R. costs \$300 and covers the fiscal year (July 1 to June 30th). To verify status of your D.I.R. number, please visit: <http://dir.ca.gov/Public-Works/Contractors.html>

Assistance is available in obtaining bonds, lines of credit and/or insurance. We will consider dividing total requirements when economically feasible into smaller tasks or quantities to permit participation by DBE in the competitive process. We will assist in obtaining necessary equipment, supplies, materials & related assistance or services. S.P. Rados, Inc. requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. If you are interested in participating in this project, please contact Lucy Gonzalez at Tel: (714) 835-4612 Fax: (714) 835-2186 or bid@rados.com

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

EBMUD: WALNUT CREEK WATER TREATMENT PLANT FILTERS IMPROVEMENTS Spec 2189

Bid Date: November 25, 2026 until 1:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Work includes:

1. Filters 1 through 4:

- a. Demolish existing Wheeler Bottom underdrains.
- b. Replace and provide new underdrains, troughs, media, stop logs, applied channel overflow pipes, valves, and gaskets.
- c. Demolish existing surface wash piping; furnish, install, and demolish temporary surface wash piping. Furnish and install new air scour piping.
- d. Furnish and install new lighting panel.

2. Filters 5 through 8:

- a. Replace and provide new troughs and valves.
- b. Investigate and repair the water leak at Filter 5 Right (5R) filter box. Replace all media with new media in Filter 5R.
- c. For Filters 5 through 8 except for Filter 5R, replenish lost media with new media to the levels indicated in the design drawings.
- d. Demolish Filter 5 & 7 Foundation Fieldbus, replace with District-furnished instrumentation, and replace and rewire valve boards.

3. Pipe Gallery

- a. Demolish Washwater Supply (WWS) tee, flow control valve (FCV), pipe loop and supports. Furnish and install 24"/20" WWS bypass, supports and valves. Provide new cross, valves, associated piping, and instrumentation.
- b. Demolish polyblend tank, including concrete curbs.

4. Blower Building

- a. Replace and provide new switchboard.
- 5. Operations Building
 - a. Furnish and install 800A Manual Transfer Switch (MTS) with generator connection box. Reroute existing, replace and provide new cable.

Estimated cost of this work is between \$20M and \$25M.

This project will require multiple trades and types of work; for example (note: this list is not all inclusive): demolition, saw-cutting, concrete coring, hazardous materials handling, grading, excavation, shoring, fill, concrete, rebar, waterproofing, painting, industrial coatings, structural steel, bolting, welding, mechanical, electrical, pipeline, plumbing, temporary crane equipment, handrails, guardrails, gratings and railings, fencing, trucking, paving, and other required work and trades.

All work covered by the contract shall be completed within one thousand two hundred fifty (1,250) calendar days after the issuance of the Notice to Proceed.

The contractor/subcontractor performing the electrical work for this contract is required to be a District pre-qualified electrical subcontractor. See Instructions to Bidders Article 6 for more information.

EBMUD Contract Equity Program is in effect on this project. District contracting objectives are: Construction 25% White Men; 9% White Women, 25% Ethnic Minorities (Men and Women).

Location: Walnut Creek Water Treatment Plant at 2201 Larkey Lane, Walnut Creek, CA.

Pre Bid Conference: The District will conduct a pre-bid jobsite inspection tour to familiarize prospective bidders with the project site and conditions. The inspection will be conducted on Wednesday, October 21, 2026 at 9 a.m. Bidders/bid walk attendees (Attendees) shall comply with any Contra Costa County health orders. Attendees shall be expected to complete and sign a waiver of liability prior to attending the pre-bid jobsite inspection tour. Blank copies of the waiver form will be provided on site for completion. Attendees shall assemble at Walnut Creek Water Treatment Plant at 2201 Larkey Lane, Walnut Creek, CA. Attendees shall check in with the security guard at the entrance and report directly to the Operations Building entrance, between Filter 1 and Filter 5 upon arrival and not loiter in the surrounding neighborhood prior to the start time. This is the only time that the Walnut Creek WTP will be open for inspection.

Documents are available at no cost on www.buildingconnected.com. login is required.

Project information, including plans, specifications, plan holders list, bid results, etc., can be found at <https://construction-bids.ebmud.com/CurrentorFutureBid.aspx?BidMode=Current>. The District will make its best efforts to include information provided by bidders obtaining plans and specifications, such as bidders' names, addresses, phone and fax numbers, and email and website addresses, on the website plan holders list.

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. We encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually. We offer to assist you with bonding, credit, and insurance. Acceptance of Subcontractor's bid is expressly conditioned upon Subcontractor's assent to all terms and conditions contained in the applicable Overaa standard agreement without modification. These agreements are available for viewing in the Bidding Opportunities tab on our website, <https://www.overaa.com/subcontractors/bidding-opportunities>. By submitting a bid, Subcontractor is certifying that it has read the applicable Overaa standard agreement (either the Subcontract Agreement or Purchase Order Agreement) in full and accepts all terms without modification. Further, by submitting a bid, Subcontractor waives any rights or claims it may have to modify the terms of the Overaa standard agreement, whether through negotiations, discussions, or other means.

Overaa's standard agreements include the right for Overaa to require Subcontractors to furnish a faithful performance and labor bond, in a form and from a surety acceptable to Overaa, in the amount of 100% of the Subcontract price. Subcontractors will be required to comply with all subcontract insurance requirements, which includes providing a waiver of subrogation endorsement to their workers compensation insurance. Overaa utilizes the environmentally-friendly Textura electronic invoicing and payment system to streamline and expedite subcontractor invoicing and payment. Service fees charged by Textura for processing of electronic payments to Subcontractor shall be the responsibility of Subcontractor. Please contact our office if you would like more information. We are signatory to both Carpenters and the Laborers Union Collective Bargaining Agreements.
