Cadiz Taps Two Builders for \$403M Southern California Water Pipeline

A major water infrastructure project is moving into the construction phase in San Bernardino County, where Cadiz Inc. has awarded contracts to two established heavy-civil firms to build out its Northern Pipeline. The roughly \$403 million effort will convert a...

W. M. Lyles Co. and Mike Bubalo Construction Co. have been selected as the builders on the project. Both bring deep experience in California water and underground work, and their selection signals that the pipeline conversion is transitioning from planning into active field execution. For contractors and suppliers watching Southern California's water sector, the award is a clear indicator that meaningful subcontracting and material-supply opportunities are now in play along a very long project alignment.

The driving force behind the project is the persistent search for new and reliable water supplies in the Southern California interior. San Bernardino County and surrounding communities face the same pressures confronting much of the state: constrained imported supplies, aging distribution systems, and growing demand. Converting a former natural gas line into a water conveyance route allows Cadiz to establish a long-haul delivery backbone while leveraging an existing 220-mile corridor, an approach that can reduce some of the permitting and right-of-way hurdles that typically slow greenfield pipeline construction.

"Because the pipeline stretches 220 miles, the work will almost certainly be executed in phases and across multiple geographic segments."

In concrete construction terms, the scope centers on transforming a pipeline originally engineered to move natural gas into one capable of safely and reliably carrying potable or raw water. That conversion is not a simple swap. It involves inspecting and rehabilitating the existing steel pipe, addressing internal linings and coatings suited to water rather than gas, and reworking or replacing valves, fittings, and appurtenances throughout the alignment. Pump stations, metering facilities, and control structures will typically be required to move water across such a long distance and to interconnect with receiving systems.

Because the pipeline stretches 220 miles, the work will almost certainly be executed in phases and across multiple geographic segments. Long linear projects of this type lend themselves to sequenced construction, with crews mobilizing along defined reaches to perform excavation at access points, tie-ins, and structure locations. Earthwork will be needed wherever the existing line must be ex-

posed, repaired, or reconnected, and wherever new above-ground facilities such as pump stations and storage or metering sites are built. Site grading, foundations, and containment structures at those facilities represent discrete packages of work.

The conversion also carries a heavy mechanical and electrical component. Pumping water across a corridor of this length requires substantial horsepower, meaning pump and motor installation, piping manifolds, and associated electrical service and controls. SCADA and instrumentation systems to monitor flow, pressure, and water quality along the route are standard on modern conveyance projects. That combination of civil, mechanical, and electrical scope means the project will draw on a broad spectrum of trades rather than a single discipline.

For contractors, the range of work suggests opportunities well beyond the two prime builders. Pipeline rehabilitation and coating specialists, welders and pipe fitters, electrical and instrumentation contractors, pump and mechanical installers, and earthwork and grading crews all have a potential role. Concrete subcontractors will be needed for structure foundations and facility slabs, while suppliers of pipe fittings, valves, pumps, and control equipment stand to benefit from procurement on a project of this magnitude. Firms with experience in remote, long-corridor work in the

California desert environment will be particularly well positioned.

The scale of the contracts, totaling approximately \$403 million, underscores the volume of labor and material the project will consume. Work spread over hundreds of miles and multiple facility sites typically translates into extended schedules and sustained crew demand, which can be attractive for subcontractors looking for backlog stability. It also means logistics, staging, and access planning will be significant considerations, given the length of the alignment and the likelihood that portions run through sparsely developed terrain.

With the prime contracts now awarded, the immediate opportunity for other firms lies in the subcontractor and supplier tiers. Contractors interested in participating should be reaching out to W.M. Lyles and Mike Bubalo Construction to understand how the work will be packaged, which segments will be prioritized, and what specialty scopes the primes intend to subcontract. Establishing relationships early, before segment-by-segment buyout accelerates, is often the difference between winning packages and missing them on projects of this length.

Firms positioning for a role should prepare to demonstrate relevant experience in water conveyance, pipeline rehabilitation, and desert or remote-corridor construction. Documenting qualifications for pump station and electrical work, coating and lining scopes, and long-haul pipe handling will help subcontractors stand out. Given the water-utility nature of the end use, contractors should also anticipate the quality, testing, and disinfection requirements that accompany potable water sys-

tems, and be ready to staff accordingly.

More broadly, the Cadiz Northern Pipeline reflects a continuing appetite in California for creative water-supply solutions and the construction dollars that follow. As the state wrestles with drought cycles and supply reliability, projects that add new conveyance and delivery capacity are likely to keep generating work for heavy-civil, mechanical, and electrical contractors. The repurposing model at the heart of this project may also draw attention from other agencies weighing whether existing linear infrastructure can be adapted for water use.

For Southern California builders, the message is straightforward: a large, multi-phase water project with hundreds of millions of dollars in construction value is now under way in San Bernardino County. Contractors and suppliers with the right qualifications should be tracking the project's phasing and buyout closely, engaging the two prime builders, and lining up the crews, equipment, and material commitments needed to compete for the packages that will roll out along the 220-mile route.

Cross-Border Sewage Crisis Signals Work at Imperial Beach

A persistent sewage pollution problem in Imperial Beach is disrupting local recreation, forcing a surf camp to bus children to cleaner beaches and prompting junior lifeguard programs to relocate up the coast, according to CalMatters.

The contamination stems from cross-border flows that have long fouled the waters near the San Diego County community, an issue that has drawn

attention to the aging and overwhelmed wastewater infrastructure serving the region.

For contractors, the ongoing crisis underscores the scale of treatment and conveyance improvements needed along the southern coastline. Federal and state efforts to address trans-boundary sewage have historically involved upgrades to treatment plants and collection systems near the border.

Firms working in water and wastewater construction should watch for public funding tied to remediation of the Tijuana River watershed and related facilities, which could translate into future public-works opportunities in San Diego County.

Court Upholds SoCal Gas Appliance Limits Affecting Four Counties

A federal appeals court has cleared the way for Southern California air regulators to enforce new restrictions on the sale of certain gas-powered appliances, including commercial and industrial water heaters. The 9th Circuit Court of Appeals issued a 2-1 ruling last week upholding the limits.

The rules apply across four Los Angeles-area counties and had drawn opposition from businesses and developers who challenged the restrictions in court. With the ruling standing, the limits on gas commercial and industrial appliances can now move forward.

For contractors, the decision signals a continued push toward electrification in the region's commercial and industrial building sector. Mechanical and plumbing firms bidding new construction and retrofit work in the affected counties should anticipate

specifications shifting away from gas appliances toward electric alternatives.

Developers and general contractors planning projects in the Los Angeles area may need to adjust equipment selections and coordinate with sub-contractors on compliant systems, potentially affecting cost estimates and scheduling on upcoming work.

Caltrans Urges Work Zone Safety After Six Worker Deaths

Caltrans held a press conference in Sacramento on October 8, 2026, urging drivers to slow down and drive safely through highway work zones. Since August 10, six contractor employees working on Caltrans highway projects have been struck and killed across California, including three in a single incident on September 25 in Riverside County.

The agency reminded drivers of California's Move Over law, which requires drivers approaching stopped vehicles displaying flashing warning lights or other warning devices to move over a lane when it is safe, or slow to a safe speed if they cannot change lanes. Caltrans also asked drivers to avoid distractions and never drive impaired.

California Transportation Secretary Toms Omishakin said that behind every cone, flashing light and worker in a vest is a person doing a critical job in dangerous conditions.

Contractors with crews in active work zones may want to review traffic control plans and reinforce safety briefings with field personnel.

Six Bids Open Across California With October 13 Deadline

Contractors across California have six open bid opportunities to consider, all carrying bid dates of October 13, 2026. The listings span highway and sidewalk work, seismic retrofitting, building expansion, facility improvements and repainting, with several primes seeking subcontractors from certified business groups. Interested firms should review each listing carefully and confirm all requirements directly with the requester before submitting.

Caltrans is requesting bids for project 05-1Q1504, covering curb ramps, the removal and replacement of sidewalk, and signal and lighting work in Santa Cruz County. The bid date is October 13, 2026.

Los Angeles County Public Works is requesting Construction Manager at Risk proposals for pre-construction and construction services for the Hall of Records Seismic Retrofit at 320 West Temple Street, Los Angeles, CA 90012, under solicitation BRC0000673. The bid date is October 13, 2026.

Rudolph and Sletten Inc. is requesting sub-bids for the 'A' Building Expansion in San Diego, CA, seeking DBEs, MBEs, WBEs, SBEs and DVBES. The bid date is October 13, 2026.

Wickman Development and Construction is requesting sub-bids for Portable, Shade Structures and Landscape Improvements in Brentwood, CA, seeking DVBES. The bid date is October 13, 2026.

Allen Gill Construction Inc. is requesting sub-bids for state highway work in Shasta County, beginning from Second Street, with the listing noting Old Shasta, CA and seeking DBEs, SBEs and DVBES. The bid date is October 13, 2026.

The San Mateo County Transit District is requesting bids for the exterior repainting of its North Base and South Base facilities in San Mateo County, under Invitation #26-S-C-167. The bid date is October 13, 2026.

FEATURE

Six California Bids Open With October 19 Deadlines

Contractors and service firms across California have a busy window ahead, with six open bid opportunities all carrying bid dates of October 19, 2026. The listings span roof sealing, transit bus wraps, traffic equipment, drainage study services, a water line...

Caltrans is requesting bids for the SB/MB-IFPQ Roof Sealing, Silicone Coating and Repair project (08A4031) in San Bernardino County, with a bid date of October 19, 2026.

Foothill Transit is seeking quotations for its Bus Wraps project (RFQ No. 27-031) in Los Angeles County, due October 19, 2026 at 11:00 AM PT. The agency seeks qualified individuals or firms to print and install custom laminate wraps for nine Foothill Transit 42-foot buses. Two addenda have been issued, and the agency contact is Lillian Lin at procurement@foothilltransit.org.

"The agency seeks qualified individuals or firms to print and install custom laminate wraps for nine Foothill Transit 42-foot buses."

The City of Sacramento is requesting bids for the Econolite OptiVu project (RFB151111004) in Sacramento County, due October 19, 2026 at 2:00 PM PT. The listing describes it as a commodity bid, not construction, with an estimated value of \$240,000. The agency contact is Raquel Gonzalez via Planet Bids Q&A.

The City of Santa Maria is seeking proposals for its Drainage Study (RFP - Drainage Study) in Santa Barbara County, due October 19, 2026 at 2:00 PM PT. The listing, a services request rather than construction, directs bidders to the RFP document for the scope of work. The agency contact is Luis Magallon at 805-925-0951 x1742.

The City of Richmond is requesting bids for its 2026-27 Grade 5 RAA Line Replacement Project in Contra Costa County, due October 19, 2026 at 2:00 PM PT, with submissions through the city's secure online bidding system. The listing specifies a bid bond of 10 percent and payment and performance bonds of 100 percent, and notes a mandatory pre-bid meeting held October 6, 2026 at 10:00 AM. The

agency contact is Dayne Johnson, Project Manager.

The City of San Diego is seeking proposals for a Real Estate Property Management Software Solution (10090532-27-V) in San Diego County, due October 19, 2026 at 2:00 PM PT. The Economic Development Department is seeking the procurement, implementation, and ongoing maintenance

of a software solution to manage a portfolio that includes parks, police and fire stations, libraries, maintenance yards, administrative buildings, and two airports, Montgomery-Gibbs Executive Airport and Brown Field Municipal Airport, covering roughly 850 leases and other agreements. Two addenda have been issued, and the agency contact is Vanessa Delgado at 619-236-6248.

thedailyreporter.net/ad-form

Project Name: Master As-Needed Alameda Watershed Improvements
Bid/Contract: WD-2930.A
Awarding Agency: SFPUC
Project Location: Alameda & Santa Clara Counties
Bid Date: 10/14/2026

Project Details

Cratus, Inc. is requesting quotes from certified CMD LBEs Subcontractors, Suppliers & Haulers for the Master As-Needed Alameda Watershed Improvements Project.

The LBE subcontractor participation requirement for this Contract is 20.00%

The Engineer's Estimate is \$10,000,000

An As-Needed Construction Services contract is an indefinite quantity contract pursuant to San Francisco Administrative Code Section 6.64(b), As-Needed Construction Contracts, Master As-Needed Agreements. San Francisco Public Utilities Commission (SFPUC) plans to accomplish a series of construction projects with as-needed construction services master agreements awarded before the projects are identified.

Quotes are requested from qualified Subcontractors, Suppliers, & Haulers for all scopes of work, including but not limited to; Earthwork / Grading & Paving, Rural Road Construction & Maintenance, Retaining Walls & Slope Restoration/Stabilization, Culvert Installation & Repair, Fencing, Stock Ponds / Small Dams Construction, Rangeland Infrastructure, Small Bridge Construction, Trails Construction, Concrete/Drainage Structures, Site Safety, Traffic Control, Trucking/Hauling.

Suppliers are required for materials including Culvert/Drainage Pipe, Valves, Misc Metals & Aggregates.

The plans and specs can be requested via email at "estimating@cratusinc.com" or can be viewed on the SFPUC website below: <https://webapps.sfpuc.org/bids/DocList.aspx?bidid=4614>

Please email us with any questions or for help with bidding or insurance. We are an equal opportunity employer. Bonds will not be required from qualified subcontractors.

S.P. Rados, Inc. is a Signatory Union Contractor. Subcontractors will be required to abide by the terms and conditions of the AGC Standard Long Form Subcontract incorporating prime contract terms and conditions, including payment provisions & insurance requirements. S.P. Rados, Inc.'s listing of a subcontractor is not to be construed as an acceptance of all the subcontractor's conditions or exceptions included with the Subcontractor's price quote. Subcontractors will be required to provide a payment & performance bond from an approved surety company for 100% of the subcontracted work. S.P. Rados, Inc. will pay bond premium up to 1.5% (optional).

Please be advised, Contractors and Subcontractors must register with the D.I.R. (Department of Industrial Relations) in order to bid on public works projects. Registration with the D.I.R. costs \$300 and covers the fiscal year (July 1 to June 30th). To verify status of your D.I.R. number, please visit: <http://dir.ca.gov/Public-Works/Contractors.html>

Assistance is available in obtaining bonds, lines of credit and/or insurance. We will consider dividing total requirements when economically feasible into smaller tasks or quantities to permit participation by DBE in the competitive process. We will assist in obtaining necessary equipment, supplies, materials & related assistance or services. S.P. Rados, Inc. requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation.

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

CITY OF GREENFIELD WASTEWATER TREATMENT PLANT UPGRADE PROJECT

Bid Date: November 10, 2026 until 2:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Scope of Work includes: The City will be constructing an upgraded 2.0 million gallons per day ("MGD") wastewater, capable of meeting these more stringent treatment requirements. The new WWTP will be located on the same site as the existing WWTP, on the northeast end of Walnut Avenue in the City. Furnishing all labor, materials, equipment and services for the new Wastewater Treatment Plant (WWTP), including, but not limited to:

1. Phase 1: Site Preparation includes over-excavation, soil stabilization, temporary retaining wall construction, existing WWTP bypass piping modification, installation of bypass, coordination with PG&E for demolition and relocation of PG&E facilities, provision of temporary power, and construction of the stormwater retention basin.

2. Phase 2: WWTP Construction includes site grading, paving and yard piping, new access roads, perimeter fence and gates, plant drain pump station and on-site stormwater collection facility, a headworks facility, packaged Membrane Bioreactor (MBR) Treatment Plant, equalization basins, influent pump station, centralized fine screen facility with a MBR flow splitting box, ultraviolet (UV) disinfection system, electrical service upgrades, standby generator, chemical distribution and storage improvements, structural concrete slabs, effluent pump station and distribution system, 3-Water (3W) pump station, hydro-pneumatic tank, 3W distribution system, recycled water pump station, recycled water automatic self-cleaning filter, one of the solids handling facility, domestic potable water system, Administration/Operation Building, Maintenance/Storage Building, Electrical/Chemical Building, chemical metering and dosing systems, electrical improvements, instrumentation and controls, SCADA, testing, arcflash compliance, commissioning, training, construction of the effluent pipeline in phases, and general site improvements and all necessary finish work associated with the improvement project and its related components.

3. Phase 3: Decommission and Demolish Existing WWTP Convert existing clarifiers 1, 2, & 3 to emergency storage. Demolition of existing facilities at the existing wastewater treatment plant as needed for conversion, remove temporary retaining wall and regrade existing site, removal of equipment at the interior of the clarifier tanks, coating of clarifier tanks' interior surfaces, replacing piping and valves between the clarifier tanks, demolition of aerators and existing junction box at the aerated pond site, and any repair to the equipment and liner for the conversion of the existing aerated pond to recycled water storage ponds.

4. Phase 4: Finish Facilities Walnut Avenue extension that includes stormwater transmission facilities, new potable water service, new recycled water main, and sanitary sewer; and installation of a second sludge handling unit.

B. The Work also includes maintaining the existing WWTP in service in Phases 1 and 2 and maintaining compliance with the General Order/NOA during construction.

Project is to be completed within Nine Hundred and Fifteen (915) calendar days

Location: 41901 Walnut Avenue, Greenfield, CA 93927

Local Hiring Effort: The Monterey Bay Area residents includes only the counties of Monterey, San Benito, and Santa Cruz (50%) of the contractor's total construction work force, including any subcontractor work force, measured in labor work hours, Disadvantage Business Enterprises DBE/WBE/MBE are encouraged to bid on this project.

Pre Bid Conference: The mandatory pre-bid meeting will be held at City Hall, which is located at 599 El Camino Real, Greenfield, CA. Following the in-person mandatory pre-bid meeting, attendees/prospective bidders will travel using their own transportation to the City's existing WWTP, approximately 2 miles from City Hall.

Mandatory In-Person Pre-bid Meeting: October 5, 2026, at 10:00 am

Documents are available at no cost on www.buildingconnected.com, login is required.

Planet Bids <https://vendors.planetbids.com/portal/78539/portal-home>

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. We encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually. We offer to assist you with bonding, credit, and insurance. Acceptance of Subcontractor's bid is expressly conditioned upon Subcontractor's assent to all terms and conditions contained in the applicable Overaa standard agreement without modification. These agreements are available for viewing in the Bidding Opportunities tab on our website, <https://www.overaa.com/subcontractors/bidding-opportunities>. By submitting a bid, Subcontractor is certifying that it has read the applicable Overaa standard agreement (either the Subcontract Agreement or Purchase Order Agreement) in full and accepts all terms without modification. Further, by submitting a bid, Subcontractor waives any rights or claims it may have to modify the terms of the Overaa standard agreement, whether through negotiations, discussions, or other means.

Overaa's standard agreements include the right for Overaa to require Subcontractors to furnish a faithful performance and labor bond, in a form and from a surety acceptable to Overaa, in the amount of 100% of the Subcontract price. Subcontractors will be required to comply with all subcontract insurance requirements, which includes providing a waiver of subrogation endorsement to their workers compensation insurance. Overaa utilizes the environmentally-friendly Textura electronic invoicing and payment system to streamline and expedite subcontractor invoicing and payment. Service fees charged by Textura for processing of electronic payments to Subcontractor shall be the responsibility of Subcontractor. Please contact our office if you would like more information. We are signatory to both Carpenters and the Laborers Union Collective Bargaining Agreements.

AN EQUAL OPPORTUNITY EMPLOYER

Broward Builders, Inc.

BIDS NOV 16, 2026 • 2:00 PM

**Broward Builders, Inc.**

is requesting bids from qualified Subcontractors, including certified DVBE/MBE/WBE/SB/MB/DBE/LBE/SLBE/UDBE Subcontractors, Suppliers & Truckers for the following project:

Student Housing

Eureka, CA

Bid Date: November 16, 2026, at 2:00 pm

Construction of a new three-story student housing building with a one-story student lounge. The student housing building will contain 118 two-bed guest rooms one bath accommodations, 6 resident advisor guest rooms, accommodating a total of 242 beds. Additionally, there will be 2 two-bed guest rooms designated for full-time faculty. The facilities will also include administration offices, mental health and tutoring spaces, as well as study and laundry rooms. Scope of work also includes an open to sky maintenance yard, diesel generator, and a total of three (3) new fire hydrants.

Assistance will be given in obtaining bonds, lines of credit and/or insurance as well as necessary equipment, supplies, materials or related services. Contact Randy Cantrell at the number noted below for assistance.

Scope of Work: Work includes, but is not limited to demolition, structure demolition, concrete forming and accessories, concrete reinforcing, cast-in-place concrete, gypsum cement underlayment, reinforced concrete masonry units, structural steel, metal fabrications, landscape metal fabrications, pipe and tube railings, rough carpentry, miscellaneous rough carpentry, wood decking, sheathing, prefabricated wood lumber, glued-laminated timber, landscape finish carpentry, interior architectural woodwork, plastic paneling, crystalline waterproofing, thermal insulation, under-slab-on-grade vapor retarder, building envelope underlayment, standing-seam metal roof panels, metal wall panels, fiber cement siding, elastomeric tpo membrane roofing, sheet metal flashing and trim, roof specialties, roof accessories, penetration firestopping, joint firestopping, joint sealants, acoustical joint sealants, hollow metal doors and frames, interior aluminum frames, flush wood doors, access doors and frames, overhead coiling doors, overhead coiling smoke curtains for elevator doors, won door, aluminum entrances and storefronts, automatic sliding door systems, glazed window wall assemblies, vinyl windows, door hardware, glazing, frameless mirrors, louvers and vents, non-structural metal framing, cement plastering, gypsum board, tiling, acoustic underlayment, concrete flooring treatment, concrete processing, resilient base and accessories, slip resistant sheet flooring, tile carpeting, acoustic accessories, exterior painting, interior painting, exterior transparent finishes, exterior high-performance coatings, graffiti-resistant coatings, signage, toilet compartments, toilet and bath accessories, shower and tub enclosure, fire protection specialties, residential appliances, commercial foodservice equipment, window shades, simulated stone countertops, hydraulic passenger elevators, fire suppression, plumbing, hvac, electrical, communications, electronic safety and security, site clearing, earth moving, utility trenching and backfill, pavement base courses, asphalt paving, concrete pavement, site concrete, concrete curbs and gutters, concrete unit paving, decomposed granite paving, pavement markings, tactile warning surfacing, synthetic grass surfacing, site furnishings, planting irrigation, soil preparation, plants, water system, sanitary sewer system, landscape drainage, and storm drainage utilities.

This is a prevailing wage project. Certified payroll will be required. All subcontractors must be registered with the Department of Industrial Relations (DIR) in order to submit a bid.

Plans and specifications may be obtained by emailing a request to Estimating at estimating@browardbuilders.com.

100% Payment & Performance Bond May Be Required. Subcontractors will be required to execute our standard subcontract agreement and agree to our standard and general terms and conditions. Copies are available for review on our website www.browardbuilders.com or upon email request.

Broward Builders, Inc. is signatory to the Carpenter's, Cement Masons, Tapers and Operating Engineer's Unions.

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

EBMUD MWWTP Secondary Reactors Rehabilitation, Phase 2 - SD462

Bid Date: November 18, 2026 until 2:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Work includes rehabilitation of covered and open concrete structures; relining, modification, or replacement of small and large diameter steel and ductile iron pipes and their associated pipe supports; replacement or installation of valves and piping appurtenances and their associated electrical and instrumentation scope; installation and operation of a temporary 11 MGD pumped bypass; rehabilitation of reactor mixer and aerator; installation of new or improvements to existing instrumentation and their associated electrical and instrumentation scope; rehabilitation and replacement of motor control center components; modifications to existing sluice gates and installation of new slide gates; installation of platforms and access improvements to open concrete structures; rerouting of sump pump discharge lines; excavation and trench work; and surveying of key points in and around the reactors.

This project will require multiple trades and types of work; for example (note: this list is not all inclusive): demolition, saw-cutting, concrete coring, hazardous materials handling, grading, excavation, shoring, fill, concrete, rebar, waterproofing, painting, industrial coatings, structural steel, bolting, welding, mechanical, electrical, pipeline, plumbing, crane equipment, handrails, guardrails, ladders, gratings and railings, doors and windows, paving, pumped bypass systems, surveying, and other required work and trades. For additional description and information, see Document 00 41 01 – Bid Form, Document 00 41 05 – Description of Bid Items, Section 01 11 00 – Summary of Work, and the remaining contract documents.

Estimated cost of this work is between \$18,500,000 and \$19,500,000

All work covered by the contract shall be completed within six-hundred and twenty-seven (627) calendar days after the issuance of the Notice to Proceed.

Location: Oakland, CA

EBMUD Contract Equity Program is in effect on this project. District contracting objectives are: Construction 25% White

Men; 9% White Women, 25% Ethnic Minorities (Men and Women).

Pre Bid Conference: The District will conduct a pre-bid jobsite inspection tour to familiarize prospective bidders with the project site and conditions. The inspection will be conducted on October 7, 2026, at 10 a.m. and October 14, 2026 at 10 a.m. Attendees shall assemble at 2020 Wake Avenue, Oakland, CA

Documents are available at no cost on www.buildingconnected.com, login is required.

Project information, including plans, specifications, plan holders list, bid results, etc., can be found at <https://construction-bids.ebmud.com/CurrentorFutureBid.aspx?BidMode=Current>. The District will make its best efforts to include information provided by bidders obtaining plans and specifications, such as bidders' names, addresses, phone and fax numbers, and email and website addresses, on the website plan holders list.

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. S.P. Rados, Inc. is a Signatory Union Contractor. Subcontractors will be required to abide by the terms and conditions of the AGC Standard Long Form Subcontract incorporating prime contract terms and conditions, including payment provisions & insurance requirements. S.P. Rados, Inc.'s listing of a subcontractor is not to be construed as an acceptance of all the subcontractor's conditions or exceptions included with the Subcontractor's price quote. Subcontractors will be required to provide a payment & performance bond from an approved surety company for 100% of the subcontracted work. S.P. Rados, Inc. will pay bond premium up to 1.5% (optional).

Please be advised, Contractors and Subcontractors must register with the D.I.R. (Department of Industrial Relations) in order to bid on public works projects. Registration with the D.I.R. costs \$300 and covers the fiscal year (July 1 to June 30th). To verify status of your D.I.R. number, please visit: <http://dir.ca.gov/Public-Works/Contractors.html>

Assistance is available in obtaining bonds, lines of credit and/or insurance. We will consider dividing total requirements when economically feasible into smaller tasks or quantities to permit participation by DBE in the competitive process. We will assist in obtaining necessary equipment, supplies, materials & related assistance or services. S.P. Rados, Inc. requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. If you are interested in participating in this project, please contact Lucy Gonzalez at Tel: (714) 835-4612 Fax: (714) 835-2186 or bid@rados.com

Plans and Specifications and copies of the proposal are available free of charge <https://stevepradosinc.sharefile.com/d-sbea8ec369c2d4f01a10a8b23b9d01f36> also available for viewing at 2002 E. McFadden Ave., Ste. 200, Santa Ana, CA 92705 call our office to schedule a review of the plans and specifications (714) 835-4612.

We request bids from all qualified subcontractors and suppliers including DVBE/DBE/SDVOSB/SBE/MBE/VOSB/WBE's for the following Project:

EBMUD: WALNUT CREEK WATER TREATMENT PLANT FILTERS IMPROVEMENTS Spec 2189

Bid Date: November 25, 2026 until 1:00PM

Contact: Larry Etcheverry, larrye@overaa.com

Work includes:

1. Filters 1 through 4:

- a. Demolish existing Wheeler Bottom underdrains.
- b. Replace and provide new underdrains, troughs, media, stop logs, applied channel overflow pipes, valves, and gaskets.
- c. Demolish existing surface wash piping; furnish, install, and demolish temporary surface wash piping. Furnish and install new air scour piping.
- d. Furnish and install new lighting panel.

2. Filters 5 through 8:

- a. Replace and provide new troughs and valves.
- b. Investigate and repair the water leak at Filter 5 Right (5R) filter box. Replace all media with new media in Filter 5R.
- c. For Filters 5 through 8 except for Filter 5R, replenish lost media with new media to the levels indicated in the design drawings.
- d. Demolish Filter 5 & 7 Foundation Fieldbus, replace with District-furnished instrumentation, and replace and rewire valve boards.

3. Pipe Gallery

- a. Demolish Washwater Supply (WWS) tee, flow control valve (FCV), pipe loop and supports. Furnish and install 24"/20" WWS bypass, supports and valves. Provide new cross, valves, associated piping, and instrumentation.
- b. Demolish polyblend tank, including concrete curbs.

4. Blower Building

- a. Replace and provide new switchboard.
- 5. Operations Building
 - a. Furnish and install 800A Manual Transfer Switch (MTS) with generator connection box. Reroute existing, replace and provide new cable.

Estimated cost of this work is between \$20M and \$25M.

This project will require multiple trades and types of work; for example (note: this list is not all inclusive): demolition, saw-cutting, concrete coring, hazardous materials handling, grading, excavation, shoring, fill, concrete, rebar, waterproofing, painting, industrial coatings, structural steel, bolting, welding, mechanical, electrical, pipeline, plumbing, temporary crane equipment, handrails, guardrails, gratings and railings, fencing, trucking, paving, and other required work and trades.

All work covered by the contract shall be completed within one thousand two hundred fifty (1,250) calendar days after the issuance of the Notice to Proceed.

The contractor/subcontractor performing the electrical work for this contract is required to be a District pre-qualified electrical subcontractor. See Instructions to Bidders Article 6 for more information.

EBMUD Contract Equity Program is in effect on this project. District contracting objectives are: Construction 25% White Men; 9% White Women, 25% Ethnic Minorities (Men and Women).

Location: Walnut Creek Water Treatment Plant at 2201 Larkey Lane, Walnut Creek, CA.

Pre Bid Conference: The District will conduct a pre-bid jobsite inspection tour to familiarize prospective bidders with the project site and conditions. The inspection will be conducted on Wednesday, October 21, 2026 at 9 a.m. Bidders/bid walk attendees (Attendees) shall comply with any Contra Costa County health orders. Attendees shall be expected to complete and sign a waiver of liability prior to attending the pre-bid jobsite inspection tour. Blank copies of the waiver form will be provided on site for completion. Attendees shall assemble at Walnut Creek Water Treatment Plant at 2201 Larkey Lane, Walnut Creek, CA. Attendees shall check in with the security guard at the entrance and report directly to the Operations Building entrance, between Filter 1 and Filter 5 upon arrival and not loiter in the surrounding neighborhood prior to the start time. This is the only time that the Walnut Creek WTP will be open for inspection.

Documents are available at no cost on www.buildingconnected.com. login is required.

Project information, including plans, specifications, plan holders list, bid results, etc., can be found at <https://construction-bids.ebmud.com/CurrentorFutureBid.aspx?BidMode=Current>. The District will make its best efforts to include information provided by bidders obtaining plans and specifications, such as bidders' names, addresses, phone and fax numbers, and email and website addresses, on the website plan holders list.

We encourage bids from all Subcontractors/Suppliers including DVBE/SDVOSB/VOSB/MBE/WBE/DBE/SBE bidders. We are an equal opportunity employer. We encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually. We offer to assist you with bonding, credit, and insurance. Acceptance of Subcontractor's bid is expressly conditioned upon Subcontractor's assent to all terms and conditions contained in the applicable Overaa standard agreement without modification. These agreements are available for viewing in the Bidding Opportunities tab on our website, <https://www.overaa.com/subcontractors/bidding-opportunities>. By submitting a bid, Subcontractor is certifying that it has read the applicable Overaa standard agreement (either the Subcontract Agreement or Purchase Order Agreement) in full and accepts all terms without modification. Further, by submitting a bid, Subcontractor waives any rights or claims it may have to modify the terms of the Overaa standard agreement, whether through negotiations, discussions, or other means.

Overaa's standard agreements include the right for Overaa to require Subcontractors to furnish a faithful performance and labor bond, in a form and from a surety acceptable to Overaa, in the amount of 100% of the Subcontract price. Subcontractors will be required to comply with all subcontract insurance requirements, which includes providing a waiver of subrogation endorsement to their workers compensation insurance. Overaa utilizes the environmentally-friendly Textura electronic invoicing and payment system to streamline and expedite subcontractor invoicing and payment. Service fees charged by Textura for processing of electronic payments to Subcontractor shall be the responsibility of Subcontractor. Please contact our office if you would like more information. We are signatory to both Carpenters and the Laborers Union Collective Bargaining Agreements.
